

I feel tat the FCC should not do anything to supersede the Indiana Telephone Privacy Law. Since this law has gone into effect it has been so nice to be able to eat dinner without being interrupted by telemarketer's. If I want to buy something I will call someone that I am aware of that sells the product that I am interested in. I hardly ever receive any calls at all. I feel that this law was long overdue and I am thankful that the Indiana Attorney General took the Initiative to get this done.
